

Aidan Williams

www.aw01.com

Personal statement

Full-Stack Web Developer with over twenty years of industry experience providing high-quality PHP, XHTML, CSS & Javascript for clients including Nike, Google, Warner Bros, Coca-Cola, Barclays, United Nations, Net-a-Porter and Harvey Nichols.

In 2016 I moved to Eastbourne with my wife to look after my father. We now have a child and I'm looking for more permanent, stable work.

Key Skills

- Expertise in XHTML, including fast-loading animations using lightweight SVG graphics
- Expertise in responsive design and build for all platforms including desktop, mobile and tablet devices
- Expertise in Javascript including libraries such as JQuery and frameworks such as Foundation.js
- Expertise in CSS/SCSS as well as dynamic preprocessor style sheet languages such as Less CSS and the ability to adapt and learn new languages/systems quickly
- Expertise in User Experience Design (the satisfaction a user derives from using a website) and Information Architecture (how the website is structured to ease finding information)
- Expertise in working with and modifying PHP content management systems such as Wordpress
- Excellent communication skills, both written and verbal
- Expertise in working with both clients and colleagues to complete projects ahead of deadlines in order to ensure optimal time for testing
- Lead team-wide meetings, assign tasks and workloads to employees, and foster collaboration among teams and across departments
- Spot organisational inefficiencies and quickly identify solutions to those challenges
- Proficiency on a professional level in other areas such as 3D Design & Animation and Motion Graphic Design

Employment History

Freelance, Eastbourne

(2016 - present)

I continue to work with colleagues in London for many of my past clients in the fashion, financial and charity industries, while consistently learning new skills, languages, frameworks, etc.

Positive Hype Ltd, 2 King's Yard, 19 High Street, Uxbridge, London, UB8 1JN

(2007 - 2016)

Co-Founder & Technical Director of a small studio, leading, co-ordinating and working on projects for clients including Nike, Google, Warner Bros, Coca-Cola, Barclays, and Cancer Research UK. Hands-on design and front-end development. Operated as client liaison, project manager, new business development; created and presented pitches.

BORN Group Ltd, 223 Westbourne Studios, 242, Acklam Rd, London, W10 5JJ
(2003 – 2007)

Started as Office Junior and rose through the ranks: Junior Web Developer, Web Developer, Senior Web Developer, Lead Web Developer, to Technical Development Manager as head of my own team on projects for clients including Uniqlo, United Nations, Net-a-Porter, Harvey Nichols, Mr & Mrs Smith, Matthew Williamson and Hiscox Insurance.

Hobbies & Interests

My wife and I operate a video game community at www.PixelGum.tv

The website and its contents were completely created by myself, from the 2D and 3D graphics to the animations as well as the videos on YouTube.
